

I have been a subscriber to XM Radio for quite some time. XM provides variety not available elsewhere. The music is fantastic, as well as traffic and weather. Being able to tune into traffic and weather while on road trips is a great service and one worth paying for. The National Association of Broadcasters has no right to dictate what I am permitted to listen to. I respectfully urge the FCC to REJECT NAB's petition 04-160. This is a free country and if XM has the ability to provide the services I deserve, then I should have the right to pay for them.
